JOEL AARON GRIFFIN

SCRIPT SUPERVISOR / CONTINUITY & WRITER

Personal Profile Statement

I matriculated in 2015 through an online school and spent a gap year in Zimbabwe doing a course called Quest Africa which serves to provide individuals with a vast array of skills.

I then went into employment as a content developer and photo/video producer for the online store, Livecopper. After a year, I left to begin studying at AFDA to complete a Bachelor of Arts in writing and directing.

I began working in the industry in 2021 in a variety of departments and quickly fell in love with and began specialising in Script Supervising/Continuity.

Hobbies and Interests

I have always had a great love for the outdoors, and it is where many of my interests take place. I particularly enjoy spearfishing and freediving and other various activities where I can spend my time in the ocean. Of course, my other primary area of interest is writing and film. I spend a large majority of my time reading and watching films. I am particularly fond of fantasy and absurd comedies from British and French creators.
